CARRIED

MATTERS ARISING FROM MINUTES

An update was given on the proposed truck wash project.

REGIONAL MARKETING AND PROMOTION FUND AND CAPTURE THE FEELING PROJECTS

The marketing project grant application, aimed at attracting new residents to live in Cobar, was successful. This project should be completed by the end of the year.

An outline of the Capture the Feeling project was given with all members encouraged to promote it and participate in it.

TOURISM WEBSITE AND FACEBOOK PAGE

The skeleton of the new Destination Cobar Website is almost complete. A photography competition will be held in August to get a library of photos to use on the new site. It is planned for the website to go live in September or October.

Heath volunteered to blow up the winning images for use to promote the winners, the website and what his business is capable of. This was agreed to be a positive initiative.

The Destination Cobar Facebook page is now up and going. It will tie into the website and they will work together to promote Cobar.

COLLABORATIVE PROJECT

Miranda presented ideas on how businesses and Council can work together to promote Cobar and also handed out the current promotional material. All members were asked to think about initiatives that could be developed and also for ideas on what to include in future marketing materials.

Action: All members to bring ideas to the next meeting, or get them to Miranda prior to the meeting.

An issue of concern that was identified was the number of business people and employees who park in the main street, preventing potential customers from doing so. A letter outlining the issue and other parking options could be presented to business owners. It was also noted that there are times when businesses are closed, making it hard to present an 'open for business' attitude to tourists.

It was noted that Drummond Park and Heritage Park are kept nice and look attractive locations to stop. Council was asked to look at signage options encouraging tourists to park in Lewis Street and the Council carpark to enjoy Drummond Park and walk into the CBD.

RECOMMENDATION: That Council endorse the Taskforce to write to CBD business owners urging them and their employees to not park in the main street, outlining why and what the alternative options are.

RECOMMENDATION: That a report be presented to the next Taskforce meeting outlining the cost of sealing the Grand Hotel carpark and the carpark adjacent to the cinema.

GREAT COBAR HERITAGE CENTRE

A discussion was held acknowledging our museum is a community facility and that to improve the exhibits, community input is needed.

Council was asked to write to businesses seeking their assistance with exhibits to see what input can be garnered. This will be further explored as a set of projects are formed up so businesses or community groups can determine where they can assist.

An update on the architect visit regarding the museum extension was provided. Heath outlined his vision to replicate a mine where you move from 'the old workings' through to a modern day mine and the differences would be stark.

The taskforce will have the opportunity to input into a design later in the process.

The idea of projecting movies or stories onto the wall of the open cut discussed as something to explore in the future.

NEWHEY LAND USE MANAGEMENT PLAN

Garry provided an outline of the plan that Council will discuss at their July meeting.

Discussion was held regarding alternative sites, options to rezone the Newey and ways to promote Cobar as a destination to encourage visitors to stay and to stay longer.

RESOLUTION: The majority of Taskforce members resolved that legal free camping should be available in the Shire.

FUTURE MEETINGS

Taskforce members were asked to provide input into future meeting topics. These included:

- Formation of a 2020 committee;
- Formation of a Tourism Advisory Committee;
- How to encourage the perception that 'we're open for business', such as businesses being open during opening hours, promotion of where to get a coffee on the weekend etc;
- A report on what the recommendations of the Taskforce have been to date and where the actions are up to.

OTHER BUSINESS

- Council, the mines and businesses met with TAFE today in a bid to get more training options delivered in Cobar, in particular courses for apprentices or courses relevant to the mining industry. These meetings will continue in a bid to better coordinate provision of training to meet industry needs, locally.

NEXT MEETING

The next meeting will be held Tuesday, 29 August 2017 at 5.30pm in the Council Chambers.

THERE BEING NO FURTHER BUSINESS THE MEETING CLOSED AT 7.20PM
